### Integra Software (Freelance)

#### Tech Leader

*01/2019 – today*

- Freelance Colaborator for the OpenEdge Service Delivery Partner in the region. I help during some crucial projects like migrations or technical debts when the client teams don't get to a solution. I am making now the capacitations on Flowmon, Chess, Whatsup Gold and other Progress Software Devtools.
- Main accounts of Argentina (Nación Servicios, SIDERSA, Merval) These companies work in character and WebSpeed. Colaborating in migrations to PAS (RestFull APIs).

- 2024 – Working on migration of Neuquén to Version 12. (Over 50,000 salaries paid per month, databases of over 50,000,000,000 records.
- Actually evaluating ShareFile and Corticon for ERP's solutions.

## **Soluciones Andinas (Banking)**

### **Business Architect**

*03/2025 – today*

- Leading the Project of Electronic Signature for 4 Banks
- Provided enterprise architecture solutions for Zurich - Seguros.
- POCs of AI tools from Progress (Semaphore / MarkLogic / ShareFile) with Integra Software.
- Designed software architecture frameworks using TOGAF.

## **Mercantil Andina (Insurance)**

### **Business Architect**

*10/2023 – 01/2025*

- Led the Core Migration Project, working with IBM, and Integra. Documented system architectures in Confluence using ArchiMate.
- Designed a cloud migration strategy from AS-400 DB2 to Azure. Collaborated with multiple business units and Agile teams (Back-end: Java, Front-end: Angular). Conducted training on Enterprise Architecture, DDD, and TOGAF.
- Explored AI applications for Data Lake projects after completing a Python diploma at UTN.
- I took the role of Tech Lead for the Mobile Cel to solve some troubles in the Payment process (I directed 6 people) for 3 months. As an Enterprise Architect I detected serious problems of obsolescence in software so the Architects Manager asked me to take care of this theme.

**YEL**

**(Zurich)**

### **Enterprise Architect**

*04/2023 – 08/2023*

- Discovery of Issues in Architectural Documentation. (Enterprise Architect). 3 months Project. TOGAF Framework

**IBM Argentina**  
**Solutions Architect**

**(ICBC)**

*12/2021 – 03/2023*

- I worked in Core Banking in the projects of Supervielle and ICBC.
- I had contact with Java Backends and Angular and React FrontEnds. All the CI/CD were usually responsibility of Tech Leaders but I collaborated in some critical issues anyway. Dbs used: Oracle, MS-SQL Server and no-sql: Redis and Mongo.

**ATOS** **(Peugeot)**

**OpenEdge Sr Developer**

*03/2021 – 12/2021*

- The project was migrating the core interfaces of Ukraine. Peugeot has a 24/7 allround the world Progress installation in production since 2005 and it is perhaps the greatest software made in 4GL and Dynamics.
- Jira / Roundtable were usual tools in these projects.

**CILSA (Ad honorem)**

**Professor - FrontEnd Development**

*02/2020 – 02/2021*

- For the migrations of some companies in Argentina we needed frontend and I worked like a professor for free. CILSA gives support to people who could not pay for these courses.

**ISBAN - Santander Tecnologia**

**Tech Leader - Functional Analyst**

*02/2018 – 01/2019*

- I worked like a Team Leader controlling the relation between the Software Factory (Capgemini) and the bank. There were 2 cells, one with java applications and other with ASP.NET. I worked closely to the implementations teams of DevOps.

**Totvs**

**Totvs Proteus - Technical Analyst**

*04/2016 – 11/2017*

- Support to the ERPs. I worked with installations of Protheus with Oracle and MS-SQL Server Dbs. I collaborated in installations of CRM and EBUS of Totvs.

## **Educacion IT**

### **Professor - Java Technologies**

*01/2016 – 04/2016*

### **Flexodata**

### **Asociación Argentina Actores**

*(01/2015 - 01/2016)*

- Project Leader | Asociación Argentina de Actores – Flexodata,
- I worked during the installation of Dynaflex (Progress DB). This was a project created during my job like Solutions Architect.
